

CONTENTS

Part I.

The influence of the pheromone trapping methods

Chapter 1.

G. BARCZIKAY, L. NOWINSZKY, J. PUSKÁS

Influence of the Construction and Use of Pheromone Traps by the
Catching Results of Harmful Moths 1

Part II.

The solar activity and its influence on Earth

Chapter 2.

J. PUSKÁS, L. NOWINSZKY, G. BARCZIKAY, Zs. KÚTI

Pheromone Trap Catch of Harmful Microlepidoptera Moth Species
Depending on the Solar Activity Featured by Q-index 11

Chapter 3.

L. NOWINSZKY, J. PUSKÁS, G. BARCZIKAY, Z. TÓTH

Relationship between UV-B Radiation of the Sun and the Pheromone
Trap Catch of Microlepidoptera Species 20

Chapter 4.

J. PUSKÁS, L. NOWINSZKY, G. BARCZIKAY

Pheromone Trap Catch of Harmful Microlepidoptera Species of the
Csalomon Type Pheromone Traps in Connection with the Height
of the Tropopause 28

Chapter 5.

L. NOWINSZKY, J. PUSKÁS, G. BARCZIKAY, G. M. LADÁNYI, O. KISS,
F. SZENTKIRÁLYI

Pheromone Trap Catch of the Harmful Microlepidoptera Species
in Connection with the Ozone Content of the Air 37

Chapter 6.

L. NOWINSZKY, J. PUSKÁS, G. BARCZIKAY

Pheromone Trap Catch of the Harmful Microlepidoptera Species in
Connection with the Geomagnetic C9 Index 48

Part III.

The lunar influence

Chapter 7.

L. NOWINSZKY, J. PUSKÁS, G. BARCZIKAY

Pheromone Trap Catch of Harmful Microlepidoptera Species
in Connection with the Polarized Moonlight 59

Part IV.

The influence of weather

Chapter 8.

J. PUSKÁS, G. BARCZIKAY, Cs. KÁROSSY, L. NOWINSZKY

Pheromone Trap Catch of Harmful Microlepidoptera Species in
Connection with the Péczely-Type Macrosynoptic Weather Situations 73

Chapter 9.

J. PUSKÁS, L. NOWINSZKY, G. BARCZIKAY

Pheromone Trap Catch of the Harmful Microlepidoptera Species in
Connection with the Puskás-Type Weather Fronts 85

Chapter 10.

J. PUSKÁS, L. NOWINSZKY, G. BARCZIKAY

Influence of Daily Temperature on the Pheromone Trap Catch of Harmful
Microlepidoptera Species 92

Part V.

The influence of air pollution

Chapter 11.

L. NOWINSZKY, J. PUSKÁS, G. BARCZIKAY

Pheromone Trap Catch of Harmful Microlepidoptera Species
in Connection with the Air Pollutants 101

Our Previous Studies 114
