

1. A porous permeable wall containing fermentor for in-situ extractive recovery of biobutanol from dilute ferment liquors <i>László Kótai and István Gács</i>	Page 1
2. Variable Composition of Chlorine Hydrates Synthesized under Various Conditions <i>Györgyi Lakatos, Pradeep K. Sharma, Vinita Sharma, Szabolcs Bálint, and Raj N. Mehrotra</i>	4
3. Solid phase sulphatizing of zinc ferrite spinel with iron sulphates as an environmental friendly way for recovering zinc <i>Anurag Saini, László Kótai, István E. Sajó, Imre M. Szilágyi, Károly Lázár, Zoltán May, Péter Fazekas, István Gács, Vinita Sharma, and Kalyan K. Banerji</i>	7
4. Metal elements, organic agents in a herbal remedy, Species <i>thymi composita</i> , and its drug-constituents <i>Klára Szentmihályi, Zoltán May, Mária Then, Mária Hajdú, Andrea Böszörményi, Andrea Balázs, Éva Lemberkovics, Gabriella Marczal, Éva Szőke</i>	14
5. Photoelectron spectroscopic investigation of the electronic structure of furoxans <i>Gábor Vass, Dániel Dzsotján, Győző G. Lajgut, and Tibor Pasinszki</i>	22
6. Comparative phytochemical screening of phenoloids in <i>Lysimachia</i> species <i>Anita Tóth, Eszter Riethmüller, Ágnes Alberti, Krisztina Végh and Ágnes Kéry</i>	27
7. Phytochemical comparison and analysis of <i>Bergenia crassifolia</i> L. (Fritsch.) and <i>Bergenia cordifolia</i> Sternb. <i>Renáta Árok, Krisztina Végh, Ágnes Alberti and Ágnes Kéry</i>	31
8. Characterization of synthetic voltaite analogues <i>István E. Sajó</i>	35
9. Deuterium isotope separation in the chemical reaction of aluminium amalgam and water <i>László Kótai, József Lippart and István Gács</i>	37
10. 2 nd International Congress on Deuterium Depletion, 17-18 May 2012, Budapest, Hungary – Abstracts	38
11. Content	48
