FOOD PHYSICS PUBLIC FOUNDATION

Location:

1118 Budapest, Somloi str. 14-16

Founder:

Peter Laszlo, associate professor

Representative member:

Andras S. Szabo, professor, president of the board of trustees

Secretary:

Laszlo Baranyai, associate professor

Trustees:

Katalin Badak-Kerti, associate professor
Lajos Helyes, professor

Aim of the foundation:

To publish the physical knowledge of food science and the results of research and development for the specialists of food production and R+D.

Management of the property:

The management of the property is carried out by the board of trustees. The foundation is an open one, all hungarian and foreign people (natural and legal persons) have the right to support and help the foundation with money or other methods. The president and the members of the board of trustees do not get payment for their work.

Booking of the foundation:

SZÁMOLDA Ltd,
1031 Budapest, Vitorla str. 11.

Tax number of the foundation:

18257609-1-43

Account number:

11600006-00000000-16589892
ERSTE Bank, Hungary Rt, Budapest

EDITORIAL

This is the XXXI Volume of the Journal of Food Physics, and as You know the first issue was published in 1988, so 3 decades ago. Many thanks for your kind help, cooperation, support and understanding also the problems, during this period of not too easy existence. We are sure, that also this issue gives the opportunity for the readers to get interesting and useful information about some special questions of our loved and highly respected sub science, food physics.

The topics of the scientific articles in this issue cover the following fields:

- is food physics the science of the XXI century?
- determination of milk proteins in dairy products
- interfacial behaviour of casein-inulin interactions at the oil and water interfaces
- effect of fluidized bed drying on the fatty acid content of giant red shrimp
- drying kinetics and color properties of lemon leaves dried by convective hot air drying

Let me mention a little the history of the ISFP conferences. As You probably know or remember the first conference we organized in Budapest, Hungary, 1994,

followed by the second one in Bucharest, Romania, 1996. The place of the third meeting was Poland, Lublin, 1998, and in 2000 we met in Turkey, Istanbul. Later we decided to organize the conference in Brno, Czech Republic, 2002, and 2 years later, in 2004 we came back again to Hungary, but the place was Pecs. The 2006 meeting we had in Serbia, in a beautiful small town, Senta, and the next one in Plovdiv, Bulgaria, 2008. The place of the 2010 conference was Nitra, Slovakia, then in 2012 Budapest, and again in Plovdiv, 2014. After Debrecen in 2016 we were really happy to have the possibility to continue the organisation of the ISFP conferences, and the last one, the 2018 ICFP was organized again in Turkey, in Antalya at the sea-side.

We are trying to continue our activity, publishing the Journal of Food Physics and organize the conferences of the International Society of Food Physicists. Please, do not miss the opportunity and come to Romania in 2020, the town is Iasi!

Dear Colleagues! Read and enjoy this issue! And please - if You are able - support the Food Physics Public Foundation! We need help and donations for existence.
