

## Manuscript reviewers

2016–2018

The editors of the Hungarian Geographical Bulletin would like to thank the following people who have offered their assistance in reviewing manuscript submissions to our journal issues between Number 1 in 2016 and Number 4 in 2018. Their efforts and useful comments have been of great service for the authors and the journal.

ANGILERI, Sylvia (Palermo)

# GUIDELINES FOR AUTHORS

Hungarian Geographical Bulletin (formerly Földrajzi Értesítő) is a double-blind peer-reviewed English-language quarterly journal publishing open access **original scientific works** in the field of physical and human geography, methodology and analyses in geography, GIS, environmental assessment, regional studies, geographical research in Hungary and Central Europe. In the regular and special issues also discussion papers, chronicles and book reviews can be published.

## Manuscript requirements

We accept most word processing formats, but MSWord files are preferred. Submissions should be single spaced and use 12pt font, and any track changes must be removed. The paper completed with abstract, keywords, text, figures, tables and references should not exceed **6,000 words**.

The Cover Page of the article should only include the following information: title; author names; a footnote with the affiliations, postal and e-mail addresses of the authors in the correct order; a list of 4 to 8 keywords; any acknowledgements.

An abstract of up to **300 words** must be included in the submitted manuscript. It should state briefly and clearly the purpose and setting of the research, methodological backgrounds, the principal findings and major conclusions.

## Figures and tables

Submit each illustration as a separate file. Figures and tables should be referred in the text. Numbering of figures and tables should be consecutively in accordance with their appearance in the text. Lettering and sizing of original artwork should be uniform. Convert the images to TIF or JPEG with an appropriate resolution: for colour or grayscale photographs or vector drawings (min. 300 dpi); bitmapped line drawings (min.1000 dpi); combinations bitmapped line/photographs (min. 500 dpi). Please do not supply files that are optimised for screen use (e.g., GIF, BMP, PICT, WPG). Size the illustrations close to the desired dimensions of the printed version. Be sparing in the use of tables and ensure that the data presented in tables do not duplicate results described elsewhere in the article.

## REFERENCES

Please ensure that every reference cited in the text is also present in the reference list (and vice versa).

### Reference style

*Text:* In the text refer to the author's name (small capitals with initials) and year of publication. References should be arranged first chronologically and then further sorted alphabetically if necessary. More than one reference from the same author(s) in the same year must be identified by the letters 'a', 'b', placed after the year of publication.

*Examples:* (RIDGEWELL, A.J. 2002; MAHER, B.A. *et al.* 2010) or RIDGEWELL, A.J. (2002); MAHER, B.A. *et al.* (2010).

#### *Journal papers:*

AAGAARD, T., ORFORD, J. and MURRAY, A.S. 2007. Environmental controls on coastal dune formation; Skallingen Spit, Denmark. *Geomorphology* 83. (1): 29–47.

#### *Books:*

PYE, K. 1987. *Aeolian Dust and Dust Deposits*. London, Academic Press.

#### *Book chapters:*

KOVÁCS, J. and VARGA, GY. 2013. Loess. In *Encyclopedia of Natural Hazards*. Ed.: BOBROWSKY, P., Frankfurt, Springer, 637–638.

## Book reviews

Book reviews should be between 2,000 and 3,000 words (including references).

## Submission

Submission to this journal occurs online. Please submit your article via <http://ojs3.mtak.hu/index.php/hungeobull>

All correspondence, including notification of the Editor's decision and requests for revision, takes place via the electronic submission system.
